

# HANDIFOAM<sup>®</sup> GASKET FOAM

## FLEXIBLE FOAM SEALANT

HandiFoam<sup>®</sup> Gasket Foam is a flexible, polyurethane foam sealant designed to create a durable, continuous seal between drywall and framing. Once cured, the foam compresses to help prevent drywall bowing while maintaining a strong bond to framing materials, delivering long-lasting performance and improved energy efficiency. Its controlled application allows for smooth, precise placement, making it an ideal solution for sealing gaps that can allow air, moisture, and pollutants to move through the building envelope.

ITEM #	SIZE	DISPENSING TYPE	COVERAGE (based on 3/8" bead)
P31003	14 OZ (397 G)	GUN FOAM	778 FT (237.1 M)

**CREATES A DURABLE DRYWALL SEAL**

**STAYS FIRMLY BONDED TO FRAMING**

**POLYURETHANE FOAM-BASED**

**IMPROVES ENERGY EFFICIENCY**

**INTRODUCING THE NEW HT990 DISPENSING UNIT**  
FEATURING A SMOOTH-TIP DESIGN FOR ENHANCED GLIDE & PRECISION  
DESIGNED SPECIFICALLY FOR GASKET FOAM APPLICATIONS

HANDIFOAM GASKET FOAM IS ALSO COMPATIBLE WITH ALL HANDIFOAM DISPENSING UNITS
